RULING ON ENTITLEMENT¹

On May 4, 2018, Cynthia Peterson filed a petition for compensation under the National Vaccine Injury Compensation Program, 42 U.S.C. §300aa-10, *et seq.*,² (the “Vaccine Act”). Petitioner alleges that the influenza (“flu”) vaccine that she received on November 11, 2016, caused her to develop a right shoulder injury related to vaccine administration (“SIRVA”). Petition at 1. The case was assigned to the Special Processing Unit of the Office of Special Masters.

On January 7, 2020, Respondent filed his Rule 4(c) report in which he concedes that Petitioner is entitled to compensation in this case. Respondent’s Rule 4(c) Report at 1. Specifically, Respondent has concluded that Petitioner suffered a Table SIRVA

Injury. *Id.* at 7. Respondent further agrees that Petitioner has suffered the residual effects of her condition for more than six months and has therefore met the statutory requirements for entitlement to compensation. *Id.*

In view of Respondent's position and the evidence of record, I find that Petitioner is entitled to compensation.
